

Saif Bin Darwish and all its associated companies across the group are committed to protect the environment through:

- *Compliance with all applicable environmental legal requirements* through routine compliance assessments.
- *The prevention of pollution* and more efficient use of resources, by mitigating process related impacts in the natural, built and socio economic environment.
- *The establishment of suitable objectives* and implementation of functional environmental programs.
- *Continual improvement* of all related programs and standards in order to enhance organizational environmental performance.

We believe in careful work structuring in order to simplify processes and increase the efficiency of the organization's activities. Through careful work design and planning, Saif Bin Darwish aims to maximize output whilst minimizing resource use.

In line with this we are committed to the following principles:

- *Efficient resource utilization* through appropriate work design, planning and process streamlining within the various sections,
- *Mitigation of material impacts* through ongoing impact determination, evaluation, and control as well as ongoing monitoring of environmentally significant processes,
- *Effective waste management* by focusing on reduction initiatives and by applying the lifecycle approach to key products,
- *Mitigation of emissions* into the environmental through effective operational control,
- *Energy efficiency through better management of energy sources.*

We acknowledge the importance of environmental sustainability to our interested parties and will encourage suitable and sustainable strategies through extensive customer support and product design.

We directly support government-led sustainability programmes relevant to our scope and have tasked management with the responsibility to ensure all related programmes are fully implemented and maintained.

The Managing Director has overall responsibility for this policy and is committed to the full support of the sustainability programme and policy provisions. This policy will be communicated to all interested parties, will be reviewed yearly.

  
Abdulla Darwish  
Managing Director  
Saif Bin Darwish
